ABOUT US

In the heart of Dublin, Brake Loose is the new sound of rebellion. They craft a visceral, high-energy and irresistible brand of rock they call "vampire disco"—a raw, danceable, and darkly glamorous sonic landscape. At the epicenter is frontman Alex Murillo who seems destined for the rock and roll pantheon. With the soul of a classic crooner and the untamed spirit of a rock and roll rebel, his commanding presence, powerful and unusual baritone voice, combined with his magnetic stage persona, is the undeniable driving force behind the band's rapid ascent. His performance is the core of the Brake Loose experience, making them not just a band to hear, but a spectacle to witness. Backed by the formidable talents of David O'Grady (guitar), Juanjo Pulpeiro (bass), and Nando Alonso (drums), Brake Loose is pure, uncut rock and roll swagger, built for packed clubs and massive festival stages and fronted by a star in the making.

PRESS

"Dubliners took Maid Of Stone Fest for a blast that was all the more compelling due to the frontman's antics. Falling over, bashing a tambourine, vibrating to the music and eyeballing those at the barrie; this is a singer who just wants to perform and it is utterly welcome. There is a uniqueness to his voice..."
-**Total Rock.**

"*Alex Murillo*, one of the stars of the future. He's sort of the singer we could easily see on the cover of *Kerrang*!"
-**Devolution Magazine.**

"Enigmatic Frontman *Alex Murillo* was a formidable force as he strutted around the stage, their music was seriously catchy"
-**My Global Mind Mag.**

"*Brake Loose* are poppy rock, gothic, retro and futuristic, this is a band that has a lot to offer"
-**Fireworks Magazine.**

"A great sounding rock band for sure and one that I think Ireland has lacked for quite a while"
-**Rock N Load.**

"Simply put, it sounds wonderfully massive and big... the future is looking bright for these chaps"
-**Eternal Terror Live.**

"They're here to be loud, proud, and unapologetically excessive... because that's what rock 'n' roll should be"
-**Maximum Volume Music.**

"This is rock music that appeals to all, stadium-sized, yet it retains the heart and soul of something more direct"
-**GBHBL**

"Forever rebels and loveable devils, *Brake Loose* are a band that don't lose momentum. They are a band with a roar, and acts in their field have every right to be jealous, or scared, of their ungodly energy. They have been one of the country's hottest rock exports in recent years, and *"Rebel Rebel (Evil like the Devil)"* feels like the start of bigger things beyond the emerald isle for the four-piece."
